

The Somers Community Center Finally...a chance for common ground!

Did you know that plans are being presented and are open to input from Somers residents on a proposed Community Center?

[View Current Plan Here](#)

The Community Center is an extremely well-thought out building and will definitely succeed in meeting the needs of many groups, however, we implore the Town Board to revise the proposed plans to include an

OUTDOOR POOL

Understanding the current economy / costs , consider the possibilities:

- Offer Summer Job Opportunities for resident teens (Lifeguard, Camp Counselors, Staff, Concession)
- Generate revenue to offset the costs (Concession Stands / Birthday Parties / Swim Classes)
- Offer People of All ages a Place to Gather & Socialize TOGETHER
- Increase Our Property Values
- Keep our money in Somers during the summer months

The question is not whether you PERSONALLY agree or disagree

...or if you have a pool at home

...or use a friends pool

... it is simply about improving the quality of life for ALL Town Residents

...**NOW** while we have the chance!!

[Click to send the Community Center Committee your vote to ADD an OUTDOOR Pool!](#)

For those **opposed** to the Outdoor Pool for The Somers Community Center...

Understanding that you may be living on a limited income, own your own pool or perhaps have access to a lake, please open your hearts and remember what it was like when you were younger, most likely with access to a town pool or perhaps a short ride to the beach. As kids, most of us couldn't wait for the hot and lazy days of summer to spend all day in the water with friends and family. Isn't it a shame that many children in Somers may never learn how to swim because they are not given the facilities to learn or given the opportunity to make all those wonderful pool-side friendships?

Please consider supporting the idea of an Outdoor Pool and appreciate the benefits it would afford ALL Somers residents .
